

BUILT WITH POWER TEMPLATEMONSTER'S DRAG-AND-DROP PAGE BUILDER

Build pages easily and without touching a single line of code with our flexible Power builder. Take advantage of more than 35+ modules, library of pages, and drag-and-drop functionality. With an advanced set of configuration options you can easily customize the design of your theme. Take control over your site with Power.

CRAFTED WITH CARE

Enjoy the sleek, modern design of your theme. Each element of design is carefully crafted and accompanied with the latest web design trends.

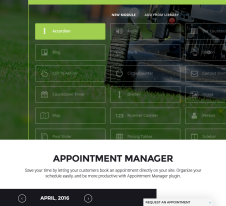

MULTIPLE LAYOUT OPTIONS

Choose from a large set of layout options and experiment with your pages structure. Speed up your building process by saving your favorite layouts in a built-in library, and use them whenever you need to create a new page.

CONTENT MODULES

Content modules allow you to add multiple content types to your page. They include buttons, images, pricing tables, contact forms, sliders, and many more. Each of them has an extended set of options that you can tweak to match the style of your website.

APPOINTMENT MANAGER

Save your time by letting your customers book an appointment directly on your site. Organize your schedule easily, and be more productive with Appointment Manager plugin.

FULLY RESPONSIVE

The theme is mobile-friendly and looks great on any device and screen resolution.

LIVE CUSTOMIZER

Customize your site with multiple theme options. View all the changes you make to your design live, without reloading your page. With Live Customizer adjusting the design of your theme is as simple as it gets.

SEO FRIENDLY

With its code and structure additionally optimized to fit the Google guidelines for websites, the theme helps you reach the top of search results.

CLEAN CODE

The code is clean, well-structured, and carefully commented. Written in accordance with the latest web standards, it lets you understand the purpose of any of its elements easily.

DOCUMENTATION

The easy-to-follow documentation guides you through each step of setting up the theme and adapting it for your project.
